

BIBOX INSIGHT

Remote access to your data – wherever you are

At Aactio, we offer our clients access to BIBOX Insight. Developed in cooperation with Scada Minds in Denmark, BIBOX Insight is your answer to gaining further success in the worldwide renewable energy market.

WHAT IS BIBOX INSIGHT?

With BIBOX Insight you can securely access your data anywhere

- Remote access to operational intelligence
- Business insight, opening new doors
- Access to dashboards and KPI reports
- The ability to correlate complex events and monitor conditions

BIBOX Insight allows you to

- Eliminate unknowns
- Explore data, investigate incidents
- It lets you act on facts

BIBOX INSIGHT

- Improves connectivity allowing you to operate your assets over the internet, securely
- Allows you to connect directly to your asset for remote maintenance and troubleshooting
- Is delivered as a hosted solution, it has no impact on your IT infrastructure, and is easily integrated with your existing monitoring infrastructure
- If you don't have an existing monitoring infrastructure, we can help you set one up

BIBOX INSIGHT BENEFITS

Make informed business decisions by revealing trends and patterns, letting you gain operational intelligence from your data. This allows you to monitor your systems in real time and identify issues before they affect you or your customers, services and revenue. BIBOX Insight lets you search and investigate anything; quickly refining your search even without specific data and eliminating unknowns.

SCADA MINDS APS AND AACTIO GMBH

Aactio has proudly partnered with Scada Minds as the global exclusive distributor for BIBOX Insight.

The partnership between the two companies means that Aactio works with Scada Minds in the research and development process to bring state-of-the-art scada solutions to you.

ABOUT AACTIO GMBH
